Indonesian History Studies Centre

- Sanata Dharma University

Social and Political Sciences Faculty

- Diponegoro University

Faculty of Social Sciences and Faculty of Economics

- Yogyakarta State University

As an interdisciplinary conference bringing together once again scholars from Indonesia and many other nations, the fifth International Indonesia Forum seeks to provide a platform for scholars who keenly follow developments in Indonesia to discuss the various ways and contexts by which the state, scholars, individuals, civil society organizations, and other interest groups have recreated, redefined or re-imagined Indonesia's past, present and future in response to, or along with, its changes: political, environmental, climatic, religious, conceptual, geo-strategic, social, pop cultural, and intellectual. Papers that deal with the various aspects of positioning Indonesia in the global or regional stage, in the increasingly fragile natural environment, as well as positioning Indonesian citizens and communities within this multicultural nation are welcome.

Visit <http://www.yale.edu/seas/IIF-GadjahMada2012.htm> for complete abstract of the conference.

Persons wishing to present papers at the conference are invited to submit a one-page abstract and a CV in electronic form (PDF or MSWord) to Frank Dhont at the following address: frank.dhont@yale.edu. All papers will be presented in English.

Deadline for submission of abstracts: March 31, 2012.
